Enrollable: Sprint 1 Plan

PO: Colina Guan
Scrum Master: Dina Chen
Team: Brenden Greenlee, Jinghao Shen, Yichen Zhao

Sprint 1 starts: January 13, 2021
Sprint 1 ends: January 26, 2021

User stories planned for Sprint 1:

(2) As a student, I want to be able to search for classes that I'm interested in
(2) As a student, I want to save my class information in my account so that I can reference it later (spike only)

Tasks from user stories for Sprint 1:

[(score) user story]
(2) As a student, I want to be able to search for classes that I'm interested in
- (estimated hour) task [assignment]
- (5) finish wireframe   [Colina, Dina, Yichen]
- (3) finish mockup   (after wireframe)
- (2) figure out mappings for class data   [everyone]
- (2) make React project skeleton   (based on previous tasks)
- (5) finish class search component   (based on previous tasks)
-
- [Spike] web framework pros and cons   [Jinghao]
        (Vue.js, React.js, and more?)
- [Spike] performance testing   [Brenden]

(2) As a student, I want to save my class information in my account so that I can reference it later
- [Spike] research user databases/api   [Jinghao]
- (next sprint) finish login/signup component
- (next sprint) integrate api into frontend

Meeting Plan:

  MWF 1:00pm   discuss wireframe first
